

**Amendments to the Specification:**

Please replace paragraph [0015] beginning at page 4, line 2, with the following amended paragraph:

-- [0015] A system 10 for ordering at least one consumable 17 for a printing device 11 in accordance with one embodiment of the present invention is illustrated in FIG. 1. One embodiment of the system 10 includes a printing device 11, an operator system 12, and a supplier processing system 26. One embodiment of the method includes displaying a status of and information about ordering at least one consumable 17, monitoring for an input indicating that an order for the displayed consumable 17 has been placed, and submitting the order for the consumable 17 to a supplier if the monitored input indicates an order should be placed. Another embodiment of the method includes redirecting a portion of the payment for the sale of consumable back to the original retailer. The present invention makes the process of ordering at least one consumable 17 for a device fast, easy, and convenient while maintaining business relationships. --
